EXPORT OUTSIDE EU/VAT

A VAT refund is available for non-EU residents buying from UWCamerastore privately. It is necessary for the goods to be exported within 3 months of purchase. This procedure has the following conditions attached :

1. The VAT must be paid in whole when purchasing in store. It is important that your full name, address of your residence outside the EU and your passport number are included on the invoice. Please make sure to ask for this, as you will not be eligible for a VAT refund if this information is not included on the invoice. We need a copy of your passport (showing that you are a non-EU resident) in our administration as a proof. Please cover the photo and the personal number.
2. The total value of the purchase should have an amount of at least € 50,-, incl. VAT.
3. Export within 3 months, after purchase.
4. When leaving the EU, make sure to get the **original** invoice stamped with an export stamp from the relevant customs office. (for example customs at Schiphol Airport). The product will need to be presented at customs by the person himself or herself.
5. To obtain your VAT refund, you will need to send the following to UWCamerastore, to the address as mentioned above.
 - The original invoice with the customs stamp and signature.
 - Your bank account information.

If any of these above mentioned conditions are not met, no VAT will be refunded.
